

ROADBOOK TK

WMMRC 2024

PROFILE AND DATA OF THE CLASSIC 17K

This circular route reaches its highest point at the Buenavista Refuge, at an altitude of 2,162 metres. It might be a good idea to take a break here to catch your breath and enjoy the views. The descent then begins through the Epifanio, Cargates and Picaubé ravines. The finish line awaits you approximately 10 kilometres from there.

17 kilometres that will allow you to discover and visit one of the most important forest works in the world. With 1,058 positive metres in a climb, we will reach one of the best views of the Canfranc Valley; we will reach "Buenavista". From there it will be almost all downhill to the finish line, a fast, comfortable and impressive descent through the forest.

Distance: 16,400 kilometres
 Positive difference in altitude: 1.058 metres
 Negative difference in altitude: 1.058 metres

Closing time Canfranc-Estación (finish line): 05:00 hours

SECTOR 1

CANFRANC-ESTACIÓN (start) / REFUGIO DE BUENAVISTA

SECTOR DETAILS: 7.0 km, 963 m. positive and 23 m. negative
ACCUMULATED DATA: 7.0 km, 963 m. positive and 23 m. negative

Medium difficulty. The entire section is marked with PR markings as well as the race marking by the organisers (red flags with the name of the race and ribbons).

The first 600 metres of the CLASSIC 17K run along the road to the bridge at the start of the Picaue track. This section will be controlled both by the Guardia Civil (who will close the traffic on this road) and by the organisers. After about 500 metres of ascent, we will take the so-called "camino del Carretón", a path that leads us, in continuous ascent, towards the Buenavista Refuge.

Near the halfway point of the climb, take a detour to the left which, passing under the hydroelectric power station pipe, will take you back into the forest. We will soon reach kilometre 4.1 of the race, where we will find the first liquid refreshment point. Once past this point, we will soon reach a crossroads, where we will take the detour to the right, which will make us progress quite comfortably, first into the forest and then through a grassy area.

Once we have passed an altitude of 2,140 metres, we will turn left at another crossroads, and after just 100 metres more, we will reach the highest point of the race, the Buenavista Refuge, the race's complete refreshment point and where the descent to the finish line will begin.

*Checkpoint 1, **BARRANCO DEL BORREGUIL DE SAMÁN**
Estimated time of passage of the first runner: 00:25 hours
Estimated time of passage of the last runner: 01:00 hours*

*Checkpoint 2, **REFUGIO DE BUENAVISTA**
Estimated time of passage of the first runner: 00:55 hours
Estimated time of last runner to pass: 02:30 hours*

SAFETY WARNINGS ON THIS SECTION

HAZARD LOCATION

PREVENTIVE MEASURES

SECTOR PROFILE AND MAPS

SECTOR 2**REFUGIO DE BUENAVISTA / CANFRANC-ESTACIÓN (finish line)**

SECTOR DATA: 9.4 km., 95 m. positive and 1,025 m. negative
ACCUMULATED DATA: 16.4 km., 1,058 m. positive and 1,058 m. negative

Medium difficulty. The marking in this area is done with PR markings and with race flags and ribbons. At the entrance to the village, fences and cones will help us to reach the finish line.

Once the descent begins, we will first walk along the Cuenca Superior de Epifanio. Passing first by the Fuente Elvira, the path soon starts to descend in the direction of Canfranc-Estación, entering immediately into the forest. We will quickly pass the Refugio del Vasco, and shortly after, we will take a detour to the right that will take us to the Barranco de Cargates, where at kilometre 9.9, we will find the next liquid refreshment point.

From this point, we will head towards the upper part of the Picaubé ravine, which curve after curve will make us descend until we reach a crossroads where we will take the path to the left, and after a small and comfortable climb, take the next detour to the right, to continue our descent to the Picaubé track, where we will find the last water point (kilometre 14.0).

The last kilometres of the race run first along a comfortable track until we reach the Casita Blanca, where we take the path to the right again, which will take us to the Pista de Coll de Ladrones, which we take until we reach the road and turn left to enter the finish area, first passing through the village and entering the finish line across the bridge of the International Station of Canfranc.

Checkpoint 3, **BARRANCO DE CARGATES**

Estimated time of passage of the first runner: 01:20 hours

Estimated time of last runner to pass: 03:30 hours

Checkpoint 4, **PICAUBÉ DIRT ROAD**

Estimated time of passage of the first runner: 01:35 hours

Estimated time of last runner to pass: 04:20 hours

Checkpoint 5, **FINISH LINE**

Estimated time of passage of the first runner: 01:45 hours

TIME OF CLOSING OF CHECK POINT: 05:00 hours
